Technology at work for you

CONNECTING YOUR BUSINESS

TO THE TECHNOLOGY RESOURCES YOU NEED

Soltus was founded in 1999 as a software engineering firm in the business of connecting data islands. By connecting manufacturing systems with inventory control, financial reporting systems, marketing and sales, environmental compliance and safety systems, our clients are able to be more efficient, productive and profitable.

flexible solutions for your business needs

TECHNOLOGY CONSULTING PROVIDES
A TOTAL END TO END SOLUTION.

It is our belief and experience that any problem can be solved through the examination, analysis and revision of the relationship between business processes, hardware systems and software data flow.

Businesses like yours are looking for partners that can bridge the gap between their business goals and the capabilities of their current technology. As a Microsoft Gold Certified Partner, Soltus is available as an expert adviser to assist you in bridging this gap and in providing a long-term strategic technology roadmap for your continued success.

What can Soltus do for you?
